

M359 Relational headings summary

The following details are summary representations of the relational headings presented in *Block 2* for the Hospital and University examples presented in the course text. They should be identical to the relational headings used in *Block 2*.

The details are provided here as reference material to support your study of the course material. The full relational declarations can be found in the *Hospital* and *University relational representation* documents, which are supplied with the course material and located in the `..\M359\SupportMaterials\Hospital` and `..\M359\SupportMaterials\University` directories, respectively. An additional card for each model (*M359 Hospital data summary* and *M359 University data summary*) shows the data values for these relations used throughout *Block 2*.

M359 Block 2, Section 5, Normalisation examples

The following tables are copies of the tables used in *Block 2, Section 5* (Figures 5.1 and 5.2) where normalisation is introduced. The functional dependencies in the *Appointment* table are also listed. They are supplied here so that you can easily refer to the figures when working through the course material, exercises and TMAs.
